

Neto Alves

SYSTEMS ARCHITECT

From layer 2 to the LLM — 10+ years between the network and the code

Available for new projects

ABOUT

The same person who configured the switch later wrote the system that runs on it, and now measures how much it costs in AI tokens.

EXPERIENCE

10+ years in infrastructure and networking

Configuration and operation of networks, switches and servers. VPS, DNS, Nginx, Docker, blue-green deploy with rollback and messaging integration.

CISCO MIKROTIK FURUKAWA

SYSTEMS

OSCapstack CRM OPERATIONAL · PROPRIETARY

Commercial operating system for real-estate credit origination, in production.

78,900 lines · 56 tables · 146 RLS policies · 219 endpoints

Saturno Labs PROPRIETARY

Autonomous B2B marketing platform that measures a brand's authority inside AI answers.

37,672 lines · 14 packages · 60 tables · 1,102 tests

Moveis.pro OPERATIONAL

Multi-tenant SaaS for furniture stores, with CRM and WhatsApp/Instagram operations.

56,500 lines · 40 models · 231 commits · 3 apps

STACK

Networking & Infrastructure: Cisco, MikroTik, Furukawa, Switching, VPS, DNS, Nginx, Docker, Blue-green deploy, PM2, Heartbeat/uptime

Backend: TypeScript, Node, Fastify, NestJS, Next.js, Astro

Data: PostgreSQL, pgvector, Supabase/RLS, Drizzle, Prisma, Redis, Raw SQL

Applied AI: Anthropic, OpenAI, Google, Groq, Vercel AI SDK, Embeddings/RAG, Tool-calling, Guardrails

Front-end: React, Vite, Tailwind, PWA, three.js

Quality & Delivery: Vitest, Playwright, pgTAP, GitHub Actions, Turborepo, pnpm

EDUCATION

TECHNICAL	DEGREE	CERTIFICATIONS · HarvardX · Harvard University
Telecommunications	Data Analysis — Estácio	CS50x — Introduction to Computer Science CS50 AI — Introduction to Artificial Intelligence with Python CS50B — Computer Science for Business Professionals CS50L — CS50 for Lawyers
